

e-Kids Registration Form

So... what's this all about?

Well, if you and your kids have been to Element more than once then we would like to add you to our database. This eliminates the need to have to "sign your child in" with a visitor card each week and also provides us with information about you and your child that can help us in case of an emergency. We also use the information to help celebrate birthdays and keep you informed of e-Kids activities and special events.

We will also take a picture of your family to help keep our check-in and check-out processes more secure.

Please fill out one form per child.
